KITS APPLICATION INSTALLATION GUIDE (TRADECAST)

KiTS Online Trading Installation Guide

Please follow the below mentioned procedure to install the new Online Trading Application in your Desktop.

Step 1

Download and install [JAVA Runtime Environment](#) according to your operating system, the recommended version is Java 8 Update 40.

Note: If JAVA Runtime Environment is already installed, please ignore this step.

Step 2

Download the (KiTS) Online Trading Application from the link given below and install.

<https://kits.psx.com.pk/TradeCast/launch.inlp>

The KiTS application should now be downloaded onto your system and an icon should now be appearing on your desktop.

Login procedure

After installation (as detailed above) please follow the below mentioned procedure to log into the (KiTS) Online Trading Application once you have received the email from noreply.kits@psx.com.pk containing your login credentials (i.e. User ID and Password).

Step 1

Open the (KiTS) Application from your desktop.

Step 2

Please enter your User ID and specific digits of your password as received via on email from noreply.kits@psx.com.pk in the respective fields as shown in the image below. Then please click "Login".

KiTS Online Trading Installation Guide

Step 3

A new window will appear as shown below. Please read the information carefully and then click "Next".

KiTS Online Trading Installation Guide

Step 4

Please input the password provided to you via email from noreply.kits@psx.com.pk in "Current Password" field and the input a new password of your choosing in the "New Password" and "Confirm Password" fields and then click "Apply".

Please note that the new password must be eight to twelve characters long and must contain alpha numeric characters

The screenshot shows a 'Preferences' window with the 'Change Password' tab selected. It contains three password input fields: 'Current Password', 'New Password', and 'Confirm Password'. A strength indicator below the 'New Password' field shows 'Strong' with a green bar. A note at the bottom states: 'Note: New password must contain alpha numeric characters with the length of eight to twelve characters.' Buttons for 'Apply' and 'Close' are at the bottom right.

Step 5

A new screen will open as shown below. Please select "Create PIN now" option and the click "Next".

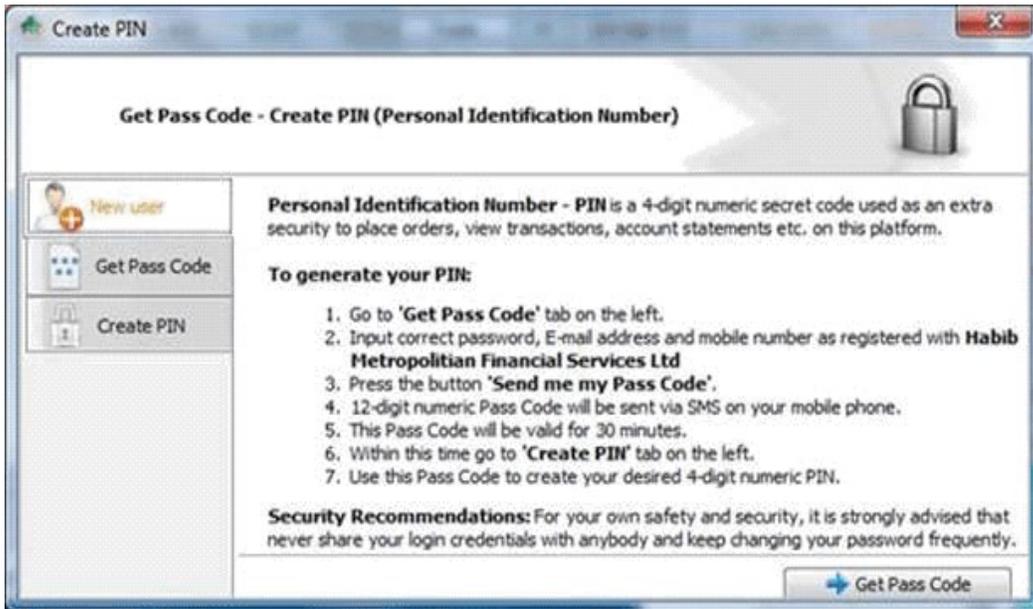

KiTS Online Trading Installation Guide

Step 6

A new screen will open as shown below. Please read the information on the screen carefully and then click "Get Pass Code".

KiTS Online Trading Installation Guide

Step 7

A new window will appear, please enter your registered information (registered E-mail and mobile number) and click "Send me my Pass code"

The screenshot shows the "Create PIN" window with the "Get Pass Code" tab selected. The form contains the following fields: "User ID" with the value "027760", "Password" with masked characters "*****", "E-mail" (empty), and "Mobile No" (empty). To the right of the "Mobile No" field, the number "i.e 9232134343" is displayed. Below the fields, there is a checkbox labeled "Already have Pass Code?" and a "Send me my Pass Code" button. A yellow warning icon and the text "Please enter your E-mail address!" are visible at the bottom of the form.

Step 8

A pop-up will appear as below notifying that you will receive an e-mail and an SMS shortly.

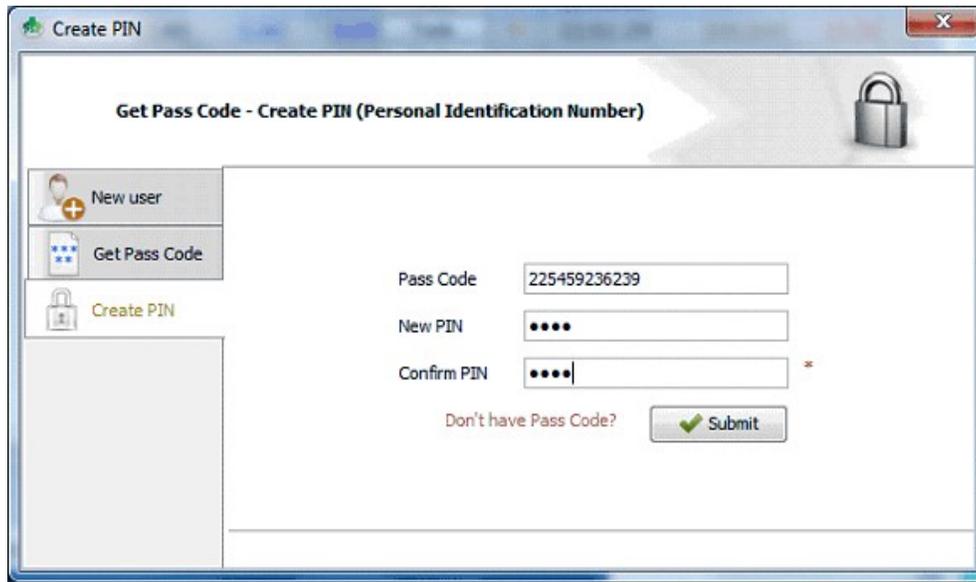

KiTS Online Trading Installation Guide

Step 9

Now in the screen as shown below please enter your passcode as received via e-mail / SMS in the field "Pass Code" and any four digits of your choosing in the field "New PIN" and "Confirm PIN".

Please click "Submit".

You will now receive a confirmation message (shown below) that your pin has been created.

KiTS Online Trading Installation Guide

You should now be logged into your online trading account successfully which you can now use as normal. A screen shot of the New (KiTS) online trading application is shown below for your convenience.
